Department of Agriculture says of Sunrise: "Of most importance from the standpoint of the practical grower perhaps, are the hardiness and resistance to disease of the plants, the earliness and larger size of berry." **PRICE: 25 for \$5.75; 100 for \$16.00; 500 for \$60.00.**

TAYLOR. New Red Raspberry from New York Experiment Station. Long, conical shape; firm thick flesh; flavor excellent. Larger than Latham and one of the heaviest bearers we have ever seen. Very early July.

LEADING DWARF APPLE TREES

These trees are not new with us. Some 15 odd years ago we started growing them from Malling stock secured from the N. Y. State Experiment Station. We offered them for sale, the first of their kind to be sold in the United States. Today they are a vastly improved "baby" tree, which bears the regular "daddy" size fruit. It is without question the "perfect" tree for the lawn or garden. We offer 3 types to suit your particular needs. We recommend them highly, without reservation. Be sure to plant them so that the bud union is at least 2 inches above ground.

Gentlemen:

Plant a Big Variety of Fruit

Early Apples, fall Apples, early and late winter Apples, Cherries, Pears, Plums and Peaches.

Plenty of small fruits like Grapes, Strawberries, Raspberries; do not forget Rhubarb and Asparagus. Eat all you want fresh in season, fill the jars for winter. Jelly, sauce, preserves.

Everyone knows that fruit is wholesome, healthful, and should be served every day. Did you ever stop and figure the amount of money you are spending every year for fruit? And, still, not always using as much as you would like.

If you will invest only a part of the money you spend for these delicacies, you can buy enough fruit trees and small fruit plants to have them "On Your Own Grounds," for a lifetime supply. There is nothing finer, you know, than when fruit is picked fresh from your own garden grounds—it gives you a great satisfaction that can never be measured in cost.

The hardy perennials appeal very strongly, because during the whole flowering season there is not a time in which some of them are not in bloom, and they re-appear year after year, blooming freely and requiring very little attention and protection.

400 ACRES

Good morning:

When your letter came in, requesting our 1947 Spring Catalog, our mailing department hastened to forward your copy immediately.

You see, we try to give the best of service and satisfaction in everything we do. Whether it's our catalog, or an order for Maloney northern-grown Fruit Trees or Berry plants, you'll receive the same sort of treatment that has been so much a part of our business since my Grandfather established it 63 years ago.

There is a sense of pride in growing your own food, right in your own yard. Best of all, it's fun, too. And we try to cater to your tastes with the finest nursery stock. Maloney quality is always the best.

When you buy something from our catalog, I want you to know that you can rely on our selection - as though you were to make a special trip to Danville and personally select each and every item in your order from our vast fields of nursery stock. We grow only hardy Northern plants and trees; and they're guaranteed true-to-name. In other words, you get exactly what you buy.

Our liberal guarantee is clearly written on page two of the enclosed catalog. I want you to read it and to understand it. We mean every word of it. If we did not live up to this pledge consistently, I assure you we would not have built up faithful, loyal and regular Maloney Nursery customers in 63 years we have been in business.

I intend to carry on the tradition of famed Maloney supervision in the nursery field. I want customers like you, and I need your good-will. In return, I promise you bigger and better nursery stock, rose bushes, fruit trees, ornamental trees and shrubs for your home that you'll be glad you bought and planted. Please feel free to call on me for advice, at any time.

If you are ever in the vicinity of this fertile garden spot of New York state, be sure to come in and talk over your nursery problems with me. Meanwhile, I'll be looking forward to your order so that we can serve you.

Sincerely

Howard W. Maloney
